English Working Proficiency

SOFT SKILLS

- ▶ Team Collaboration
- ▶ Time Management
- ▶ Problem Solving

PROFILE SUMMARY

Motivated B.E. Computer Science and Engineering undergraduate with hands-on full stack development experience gained through an internship under IBM. Skilled in Java, Python, C, and modern web technologies (HTML, CSS, JavaScript), with practical exposure to AI-assisted development using tools like Claude and ChatGPT for rapid prototyping and deployment on Vercel. Strong problem-solving ability, quick learner, and comfortable working in team environments to deliver tasks within deadlines.

EDUCATION

B.E. Computer Science and Engineering 2024 - 2028
Prince Shri Venkateshwara Padmavathy Engineering College

INTERNSHIP EXPERIENCE

Full Stack Development Intern Innoknowvex (under IBM)

- Worked on full stack web development covering front-end and back-end components.
- Gained practical exposure to industry-standard development workflows under IBM's internship program.
- Collaborated with a team to build and deploy functional web modules within set timelines.

PROJECTS

AI-Assisted Website Builder Projects

- Designed and built responsive websites using HTML, CSS, and JavaScript, leveraging AI tools (Claude, ChatGPT) for faster development and debugging.
- Used Figma for UI/UX design and prototyping before development.
- Deployed live websites using Vercel for hosting and continuous delivery.

Tools: HTML, CSS, JavaScript, Figma, Vercel, Claude, ChatGPT

WORKSHOPS & ADDITIONAL LEARNING

- Attended a hands-on Ethical Hacking workshop covering security fundamentals.
- Attended a UI/UX design webinar conducted by Brand Monk Academy.
